BEST English Medium School, Satana Nashik

Percentage : 91.40

About Me

Taking Education at PVG COET, Pune. I am interested in Web Development and currently I am learning Front-end Development. I am knowing HTML, CSS and JavaScript learning React.js . I am also learning other programming language such as C++,C and Python.

Project Experience

Global Bridge:

- Second Year Project (PBL Project)
- Creating the platform for Importers and Exporters to find each other around the world to build the trade.
- The main aim is to reduce the fraud in the trading by doing proper verification of documents and maintain transparency and remove the middle man which will direct impact root producers.

Near By Tourism:

- First Year Project (PBL Project)
- Leading the project gives experience of leading team.
- Creating the website for locating near by tourist places with the detail information.

Smart India Hackathon:

- Participated in Hackathon conducted by Indian Government.
- Problem Statement: Optimizing Doctor Availability and Appointment Allocation in Hospitals through Digital Technology and AI Integration.
- Leading the team of 6 members get selected from college by pitching to teachers.

Extracurriculars

- Selected as Web Team Member at Association of Computer Engineering Student.
